- B.** Stunning devices – devices designed specifically to stun or immobilise (including Sprays);
- C.** Objects with a sharp point or sharp edge – Knives / Scissors / Blades / Martial Arts Equipment / Darts or Pointed objects capable of being used to cause injury;

D. Workmen's tools – tools capable of being used either to cause injury or to threaten the safety of the aircraft. i.e. Screwdrivers / Saws / Drills etc;

E. Blunt instruments – any objects capable of being used to cause serious injury;

F. Explosives and incendiary substances, and devices capable of being used to cause serious injury or to pose a threat to the safety of aircraft;

A detailed list of prohibited items is available on-line www.maltairport.com/security.

Malta Airport reserves the right to confiscate any other item which would be deemed to constitute a threat. Apart from the prohibited items mentioned, the European Union (EU) adopted security rules that restrict the amount

of liquids carried through the security checkpoints as hand luggage to protect against the threat of liquid explosives.

This means that at Malta Airport security checkpoints, passengers and their hand luggage must also be checked for liquids in addition to other prohibited articles. Passengers can take onto the aircraft cabin any liquids purchased after passing Security Information through Security. Items purchased from the Departures Area, go through a separate security process. These include bottled water, wines, spirits, fragrances, and cosmetics of any size.

SECURITY INFORMATION

The following items are allowed through Malta Airport security check points:

- Liquids in individual containers with a maximum capacity of 100ml each, packed inside a re-sealable 1 litre plastic bag. Only one bag per passenger is permitted. It is recommended that passengers prepare these bags at home before arriving at the airport. The bags are to be taken out of the hand luggage and presented at the security checkpoint. They shall be x-rayed separately.
- Duty free liquids, aerosols or gels purchased from any airport or airline sealed in a security bag. The duty free liquid, aerosol or gel together with the receipt must be sealed inside a security bag with a red border at the time of purchase.

The bag should not be opened until the final destination.

- Medicines and special dietary products, such as baby food, vital for the trip are also allowed. They need not be in the 1 litre bag but are to be taken out of the hand luggage, and presented separately at the security checkpoint for screening with liquid scanners. Passengers may be asked for proof of authenticity when travelling with such liquids (a medical certificate covering the specific items may be required).
- Exceptionally, security staff may open bottles or containers for screening. Following the security screening of liquids aerosols and gels, they may not be permitted through the security checkpoint.

- Lithium batteries are considered as dangerous goods and due to safety regulations, can only be taken on board a plane with limitations. Refer to the table below to determine whether you can carry your lithium battery in your carry-on or checked baggage.

Watt Hour Rating (≤100 Wh) or (Li content)	Configuration	Carry-on baggage	Checked baggage	Operator Approval
≤160 Wh (2g)	In Equipment	Yes	Yes	No
	Spares	Yes (No Limit)	No	
>100 to ≥160 Wh	In Equipment	Yes	Yes	Yes
	Spares	Yes (Max 2)	No	
>160 Wh	Must be presented and carried as Cargo in accordance with the IATA Dangerous Goods Regulations			

To convert Amp-hours (Ah) to Watt-hours (Wh) multiply Ah x Voltage

Remember that:

- Spare batteries may not be placed in checked luggage;
- Terminals of spare batteries must be protected from short circuits by being kept in the original packaging or taping over them

For more information about dangerous goods, please visit www.iata.org/dangerousgoods

Passengers are also asked to divest from all metallic items such as (but not limited to) coins, keys, pens etc. and place them in the available containers to be x-rayed. It is advisable that small digital cameras and mobile phones are placed and screened inside the hand luggage to avoid any passenger mistakenly appropriating of other passenger's items. The travelling public is also advised not to take off any valuable jewellery unless instructed to do so by security personnel.
