A detailed list of prohibited items is available on-line www.maltairport.com/security.

Malta Airport reserves the right to confiscate any other item which would be deemed to constitute a threat. Apart from the prohibited items mentioned, the European Union (EU) adopted security rules that restrict the amount

of liquids carried through the security checkpoints as hand luggage to protect against the threat of liquid explosives.

This means that at Malta Airport security checkpoints, passengers and their hand luggage must also be checked for liquids in addition to other prohibited articles. Passengers can take onto the aircraft cabin any liquids purchased after passing Security Information through Security. Items purchased from the Departures Area, go through a separate security process. These include bottled water, wines, spirits, fragrances, and cosmetics of any size.

SECURITY INFORMATION

The following items are allowed through Malta Airport security check points:

- Liquids in individual containers with a maximum capacity of 100ml each, packed inside a re-sealable 1 litre plastic bag. Only one bag per passenger is permitted. It is recommended that passengers prepare these bags at home before arriving at the airport. The bags are to be taken out of the hand luggage and presented at the security checkpoint. They shall be x-rayed separately.
- Duty free liquids, aerosols or gels purchased from any airport or airline sealed in a security bag. The duty free liquid, aerosol or gel together with the receipt must be sealed inside a security bag with a red border at the time of purchase.

The bag should not be opened until the final destination.

- Medicines and special dietary products, such as baby food, vital for the trip are also allowed. They need not be in the 1 litre bag but are to be taken out of the hand luggage, and presented separately at the security checkpoint for screening with liquid scanners. Passengers may be asked for proof of authenticity when travelling with such liquids (a medical certificate covering the specific items may be required).
- Exceptionally, security staff may open bottles or containers for screening. Following the security screening of liquids aerosols and gels, they may not be permitted through the security checkpoint.

- Lithium batteries are considered as dangerous goods and due to safety regulations, can only be taken on board a plane with limitations. Refer to the table below to determine whether you can carry your lithium battery in your carry-on or checked baggage.
