

OUR HEALTH AND SAFETY STATEMENT

At Malta International Airport, we are committed to providing and maintaining a safe environment for our employees, passengers and visitors, and other parties that may be affected by the Company's activities.

Ensuring that an environment that is conducive to the wellbeing of these important stakeholder groups is maintained at all times, is not merely a legal obligation we are bound to.

This also falls in line with our social sustainability efforts and is a means of honouring our pledge of giving an excellent service to all our stakeholders whether they are travelling, just visiting the airport, or working on airport grounds.

We encourage each member of our organisation, from the decision-makers to the front-liners, to take reasonable care of their own health and safety as well as that of others, equipping them with the right tools, training and information to be able to go about their day at work safely. We have also put in place adequate facilities and arrangements that enable employees and representatives to raise any health and safety issues in a timely manner.

While we have an in-house Health and Safety team, we do not hesitate in appointing external specialists to assist us in meeting our statutory duties whenever the need arises.

We trust that you share our values in this regard, and that through your actions you will contribute to the maintenance of a safe environment for all whilst operating at Malta International Airport.

Alan Borg
CEO
