About Malta International Airport

2022 marks 30 years since the new Malta International Airport terminal building was inaugurated, ushering in an exciting era for tourism and the local aviation industry. Between 2002 – the year when the airport was privatised – and 2021, more than 75 million passengers travelled through the terminal building.

The building, which was originally designed with the aim of eventually handling 2.5 million passengers annually, saw a record 7.3 million passengers in 2019 alone, before COVID-19 slashed this number in 2020.

The terminal's continuous evolution, particularly through an investment of more than €30 million in two extensions together with a more recent €12 million reconfiguration, and the Company's vision of service excellence, led to Malta International Airport being awarded the 'Best Airport in Europe' accolade by Airports Council International in 2018, 2019 and 2020.
